

TECHNODROME PLAYSET

WARNING:
CHOKING HAZARD- Small parts. Not for Children under 3 years.

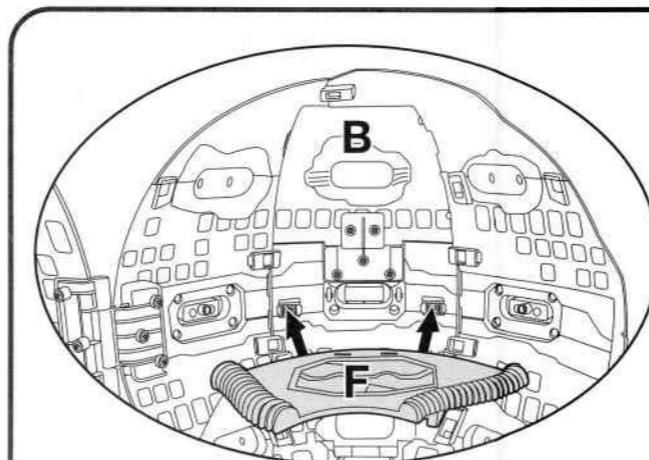

1. Attach upper section (A) to main body of the Technodrome.

2. Attach rear door panel (B) to the main body.

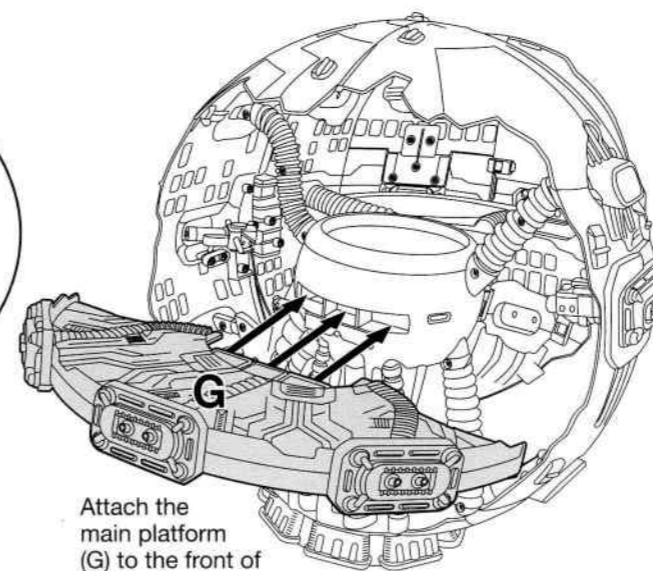

3. Build the third panel by connecting (C) to (D).

4. Complete the rear of the Technodrome by attaching the third panel to the rear door panel (B).

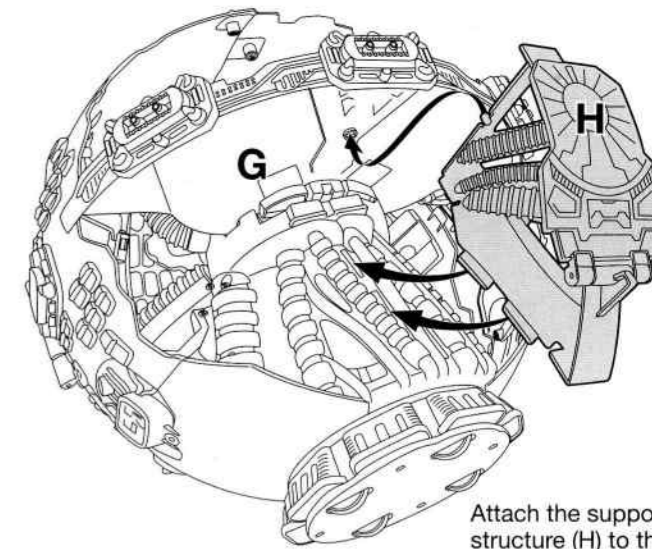

5. Lower the support stand (E) when playing with the Technodrome in the open configuration.

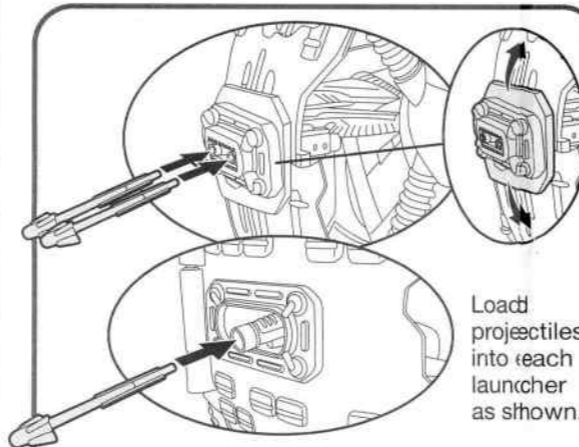

Build the inside of the Technodrome by connecting the trap door platform (F) below the door on piece (B).

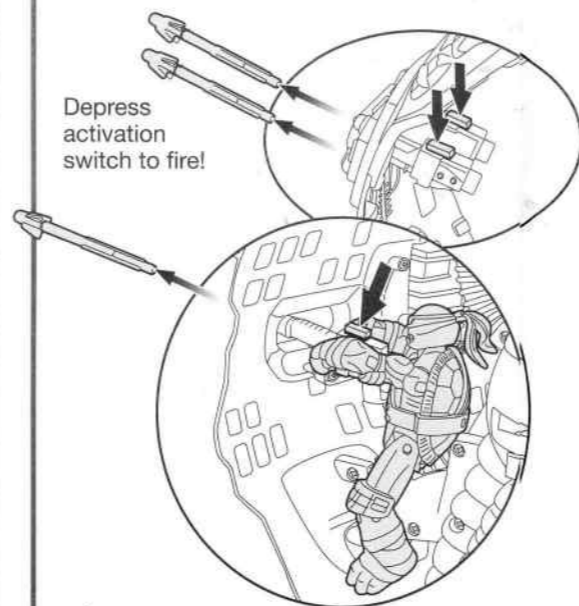

Attach the main platform (G) to the front of the Technodrome as shown.

Attach the support structure (H) to the main platform (G) as shown.

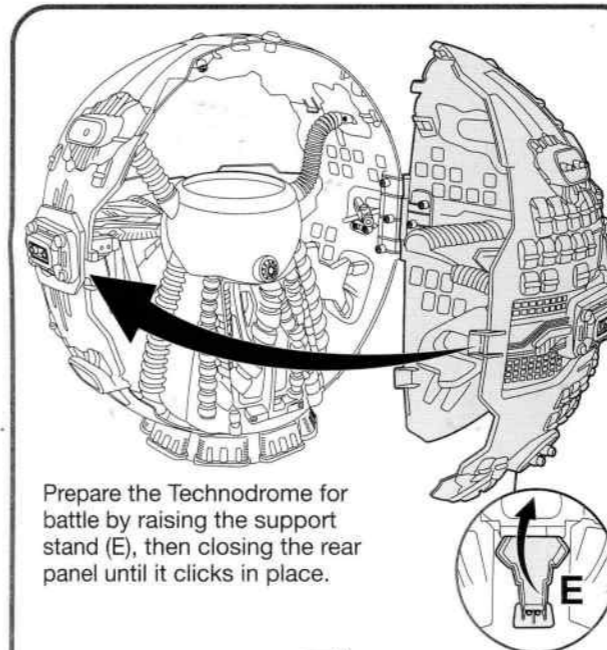

Load projectiles into each launcher as shown.

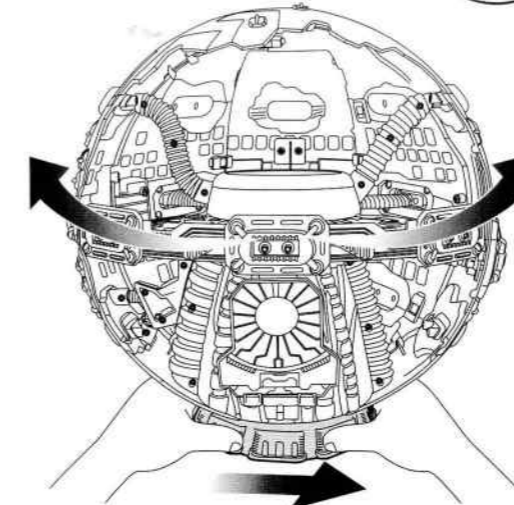

Depress activation switch to fire!

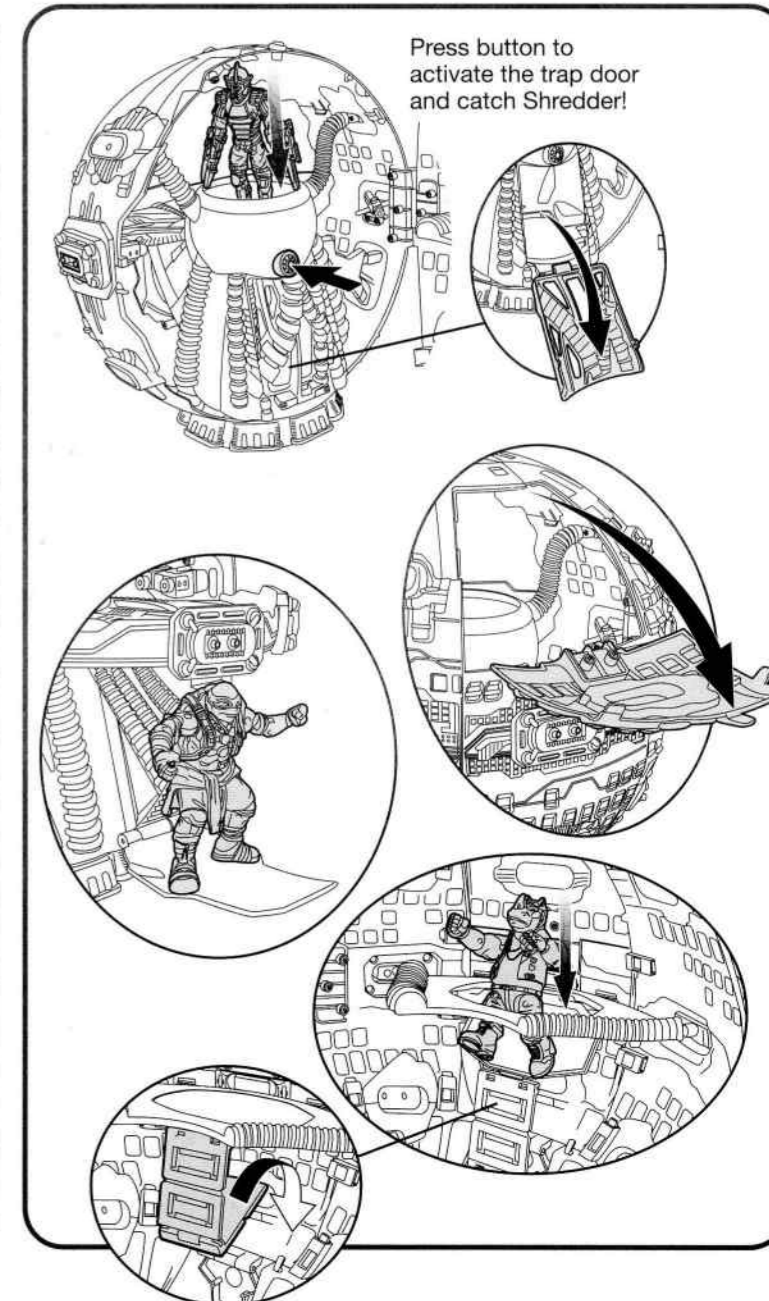

Important:
Do not fire at people or animals, especially toward the eyes and face.
Do not use projectiles other than those provided with this toy.

Prepare the Technodrome for battle by raising the support stand (E), then closing the rear panel until it clicks in place.

Your Technodrome is now ready to roll into action!

Press button to activate the trap door and catch Shredder!
